Environmental sector: demand side policy of the European Commission to create new markets for innovation

OPEN MARKET CONSULTATION

7th June 2018 | 13:45 – 17:30

AREA Science Park, Congress Center | Padriciano 99, Trieste - Italy

5 European procurers facing a common challenge together to leverage public demand and identify fit-for-purpose and cost-effective innovative and sustainable solutions to soil decontamination. The common challenge faced by the POSIDON buyers' group is identifying a soil (and eventually groundwater) remediation new, life-cycle, cost-effective technology, preferred as in-situ (and eventually on-site), to be capable of decontaminate heterogeneous anthropic soils in brownfield, composed by a mixture of industrial waste (like filling soils highly polluted by Petroleum Hydrocarbons) and soils consisting on clays and sands, highly polluted by Petroleum hydrocarbons (TPHs and PAHs), and heavy metals.
