

POSIDON
POLLUTED SITE DECONTAMINATION PCP

The state of the art: presentation of innovative and advanced commercial solution and relevant R&D&I projects

interested economic operators

POSIDON has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement N.776838

OPEN MEET-THE-MARKET EVENTS:

- allow the consortium to gain better insights into the market concerning state-of-the-art technologies and ongoing developments;
- enable networking and B2B (business-to-business) interactions and increase the opportunities for industries to form fit-for-purpose consortia and to take part in the envisaged procurement;
- check the viability of the scope of the challenge and the range of deliverables to be procured under R&D contracts;
- identify and mitigate market risks potentially able to endanger business goals and supplier performances;
- ultimately improve the PCP sustainability as the procurement preparation is enriched with stakeholders feedback.

HOW TO JOIN US! (SUPPLY SIDE)

NEXT OPEN MEET-THE-MARKET EVENTS:

- 21st of June 2018 in Bilbao City Council, Bilbao (Spain)
- 25th of September 2018 in Brussels (Belgium)

register now!

QUESTIONNAIRE

A survey to collect relevant information and feedback from the market about the scope of POSIDON PCP and the technology state of the art.

Companies and other market participants are cordially invited to fill out the Open Market Consultation Questionnaire to express their feedback about the innovation challenge and PCP setup.

Open until 30 September 2018
